The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the **City Directory Advertising Man** and let him explain this to you in detail.

R. L. Polk & Co.
Directory Publishers

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

Where does your Advertising

When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-type-writing, filling in, folding, enclosing and mailing.
